

Presidents October 2020 News Letter

Hi all CPCC members,

Well, as you know, we're still at it! Although, things are not back to being open to "officially permitting" large gatherings, there seems to be a growing trend to relaxing the extreme quarantined restrictions. I guess I was, "overly optimistic", last month expecting that we might be able to finally have a real meeting in October.

As I mentioned last month, Kathleen and I will be out of the country for a little over a week and Steve Peterman will be your Board contact person in our absence to present your nominations for the 2021 CPCC Board of Directors. The current board will not be continuing into next year so this is your time to step up and make those changes you've always wanted for the Club.

It truly has been our pleasure to serve for the last two years but hopefully, 2021 will be better for both our Country and our Club. So, please present your nominations, for the new board, this month to Kathleen, and we'll prepare the list for a November voting.

A big shout out and Happy Birthday To all our October born members.

A few of us have been participating in small Car Shows and Cars & Coffee events that are also beginning to once again giving "Motor Heads" at least an opportunity to get our Vettes out for a little time and mingle with the "like minded".

The Cars and Coffee Folsom venue has re-started and, at least temporarily, will be held on Saturday mornings (7am-9:30am) in the EDH Town Center adjacent to the Regal Theater building. Our Club members Marcus and Tiffany, along with two others have taken over the C&C presentation committee. See Instagram and FB posts.

The first event (last Saturday) at the new location, was a large success. A caveat for those wanting to attend future C&C events is, an "early arrival" may ensure a "premium" parking location. Just sayin'.

Corvette Racing is still "kicking butt and taking names". With their most recent #1 & 2 win, they are firmly at the top of the Manufacturer's Championship for GTLM and drivers point status. Go, Corvette Racing!

Also, please note, Club/WSCC Dues are due, as always, in November. Contact Glenn Carlisle, our Great Treasurer for details.

Sad news, regarding the WSCC. Buzz Morrison, Director, has passed away. A great guy, that had dedicated much of his life to the Corvette(ing) passion/hobby.

As was the case last month, hopefully our next meeting date of November 10, will allow us to assemble and be able to conduct some of the

outstanding business needed. I will do my best to keep everyone informed of any events and changes to our future activities.

I truly miss you all and hope we can once again get together as a group of friends.

Keep the faith and, Save the Wave.
Ron Christensen
